

Multiperspectivity

Katherine Watson, Coastline Distance Learning, CA 92708

Multiperspectivity: In all you do...

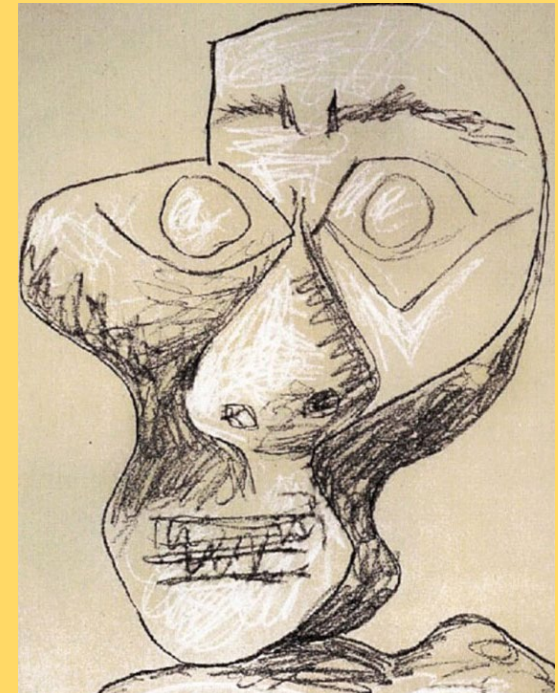

What are

.....your “bring-tos”? (If there are “take-aways”, then...)

.....your raisons d’être (why are you here?)

.....your expectations?

.....your hopes?

Multiperspectivity: What?!

Polyperspectivity (Hmm ...does calling it this help?)

Defined literally, denotatively

Defined in idealized theory

Values, positions, relationships are at once plural and together

Connections melding viewing subject & viewed object

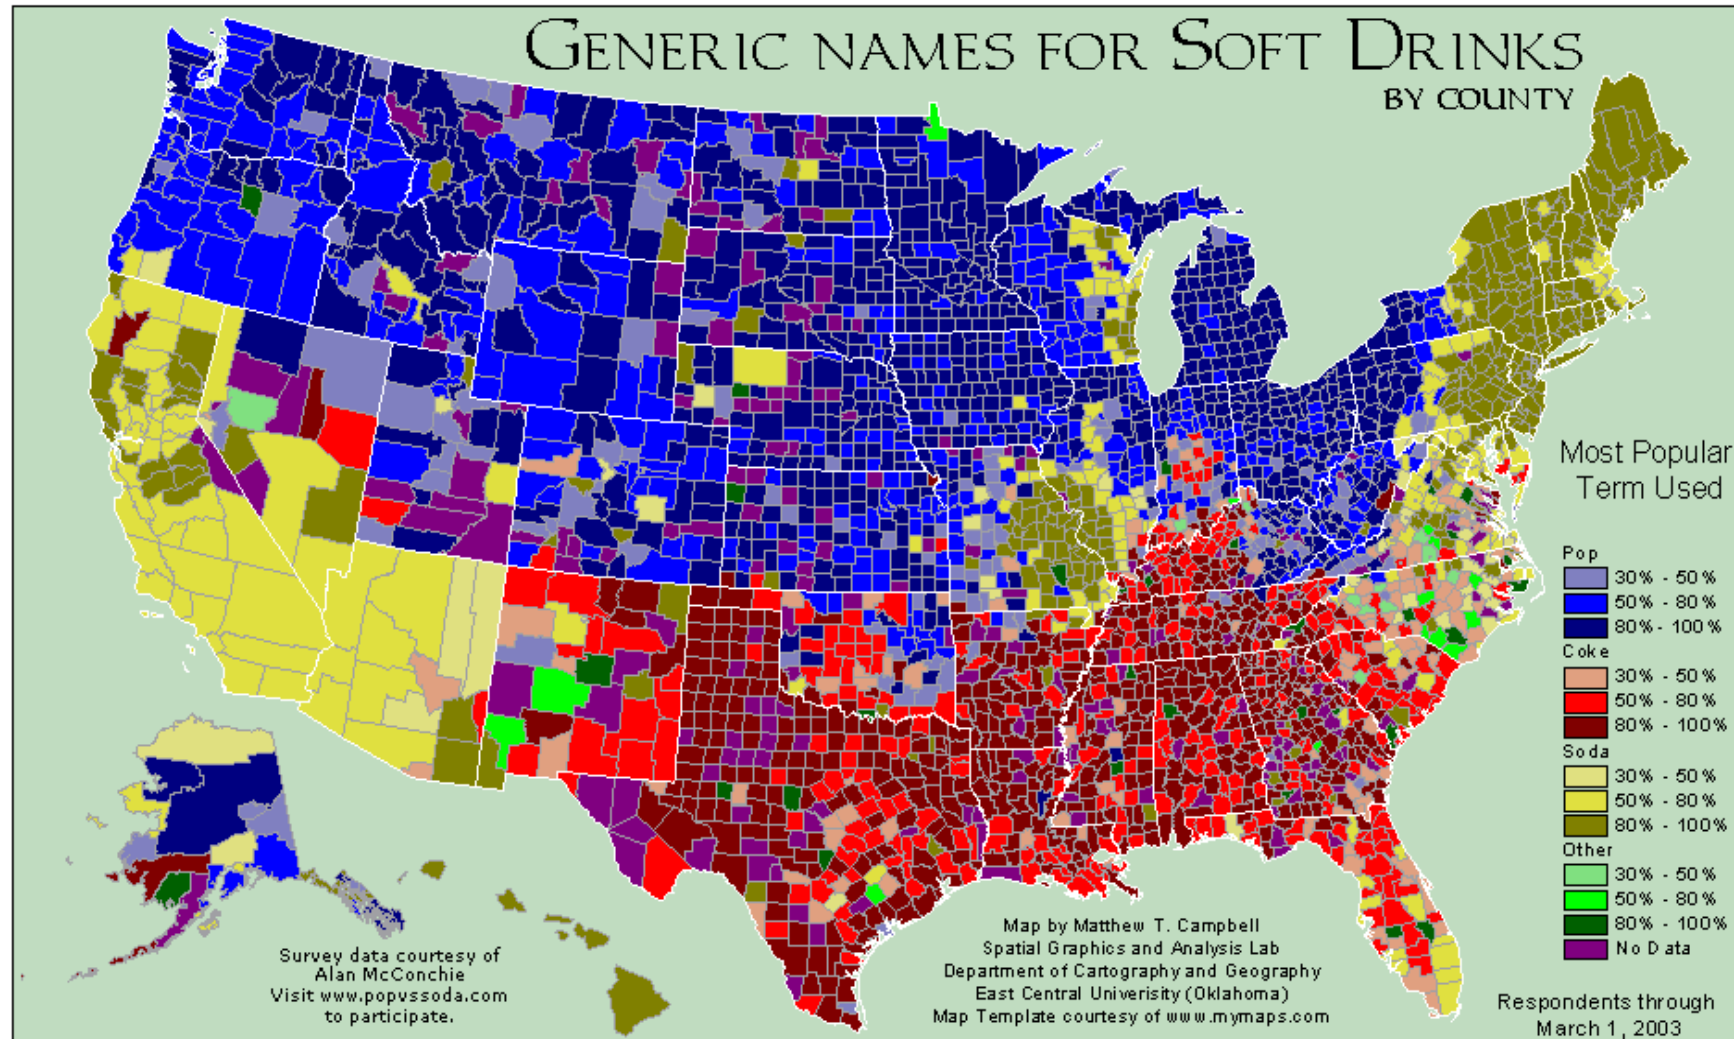

Defined in realized fact

Words having more than one meaning; colors; shapes

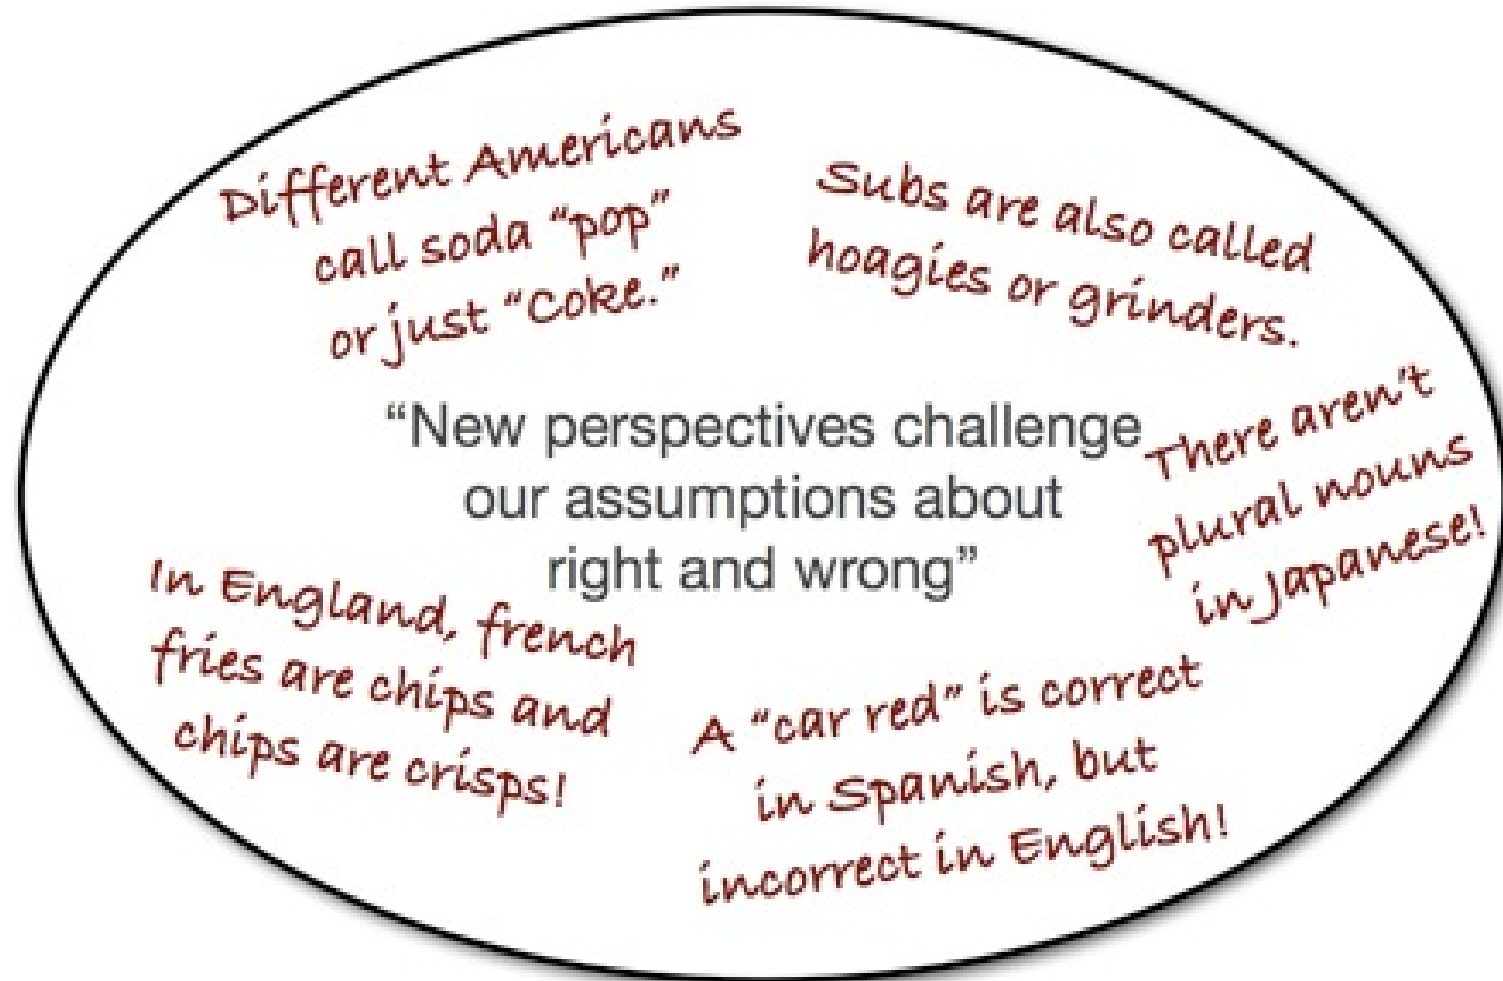

Anyone/anything viewed from more than one POV

Let's talk: A simple example of *multiperspectivity*

What can be concluded from simple talk (from Byrd)

Multiperspectivity & politics/society: “Case Challenges”

Q: Do things change when people express differing opinions?

Q: In anything we do, does *voting* matter? Who cares?

Multiperspectivity in the arts

Theater in the round

Opera and *music*

Architecture

Sculpture

Painting

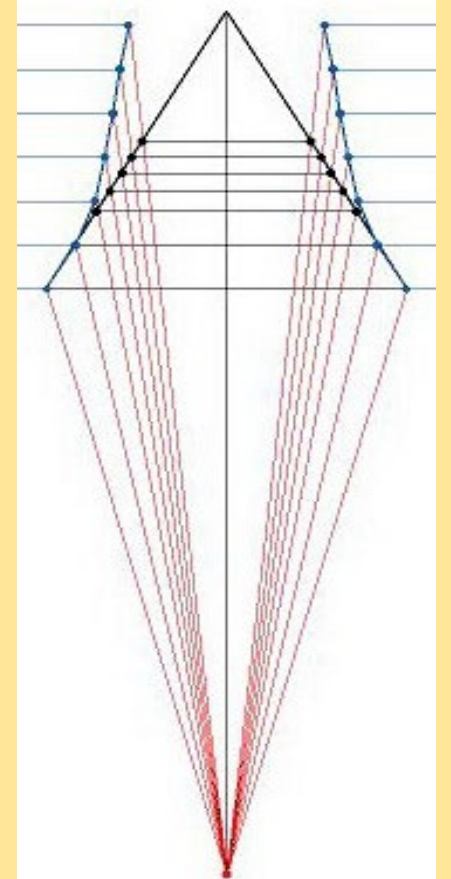

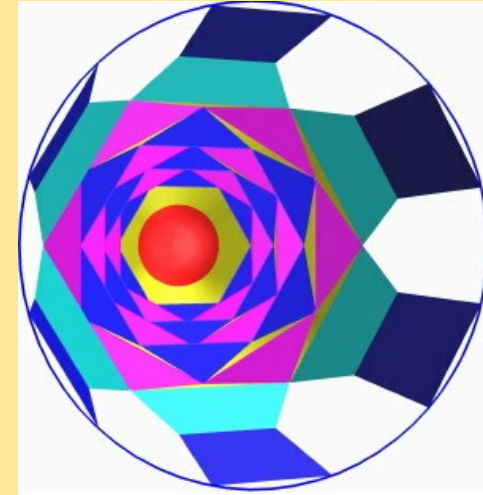

Multiperspectivity: Art, math, architecture

What do YOU see?

Guarini, theologian & architect

Tolin, mathematics student

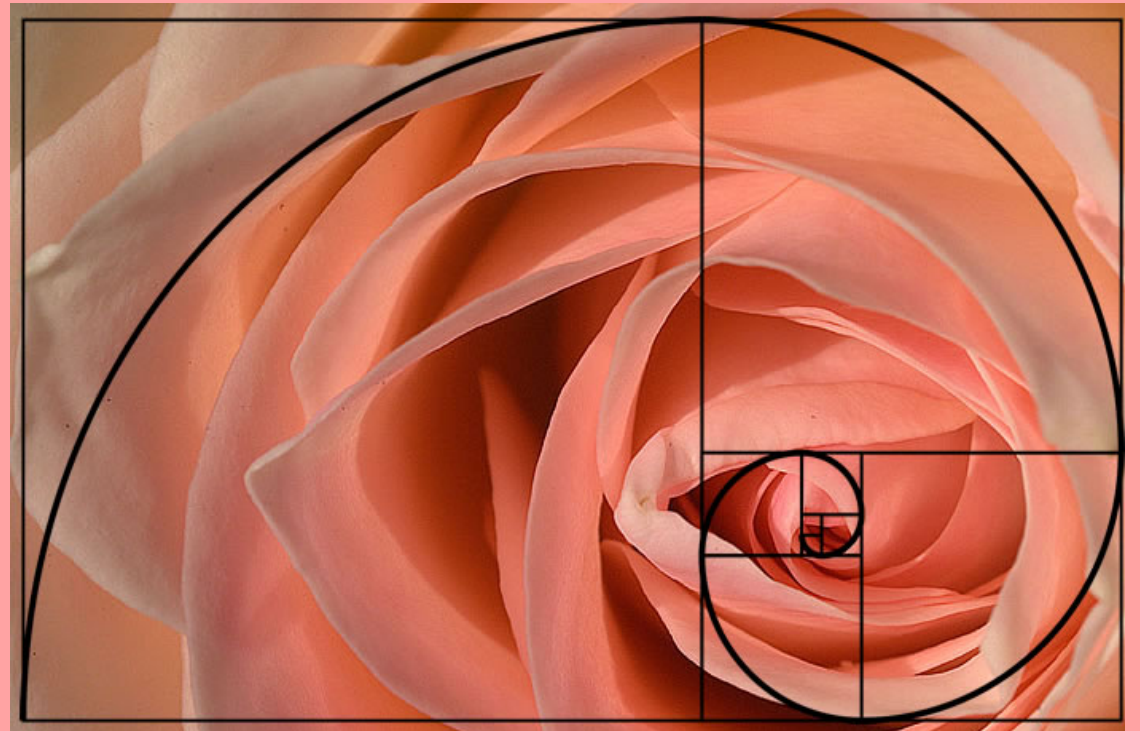

Multiperspectivity in mathematics

Use PBM (math has a social side)

Apply math to sports, nature...

Look for patterns, designs

Think in base 2, base 3, or...

Multiperspectivity & interpretation: When does it occur?

When the brain cannot immediately believe the eyes, ears or...

When subjective perception does not match physical reality

When the brain takes shortcuts, giving more importance or less...

When “radical subjectivity > metamorphosis” (said of Picasso)

Multiperspectivity in history: Role-play, POV, research

Who's doing what when with whom and where?

Hey! Is this the flag of the European Union???

How do we build historical awareness?

Multiple *take-aways*: Yes, you can...

Define "multiperspectivity" ...

... in idealized theory and realized fact

i.e., as it has been & is "realized"/exemplified

Demonstrate YOUR effective exploitation of *multiperspectivity*

i.e., how can/will YOU use it in class/in your discipline

Explain how the *multiperspective* approach can & does...

...change the way(s) questions are understood

...alter possible interactions with that question

What are your multiply mixed perspectives? 3-2-1

3:Cite THREE things that you have learned

2:Cite TWO things you find interesting & want to know more about

1:What is ONE question that you still have about this?
